What is in my skill set?

I am a **full stack** developer with extensive experience in **Ecommerce**. I have played with a lot of tools and toys. However, I would call these my primary skills:

- HTML5
- CSS3
- JAVASCRIPT
- JQUERY
- VUE 3
- PHP
- LARAVEL

I know **git**. I have working experience with **MySQL**.

I am also pretty good at this stuff:

- **Data Structure and Algorithm.**
- **Build and Integrate Api.**
- **XAMPP server.**
- **Software Architecture.**

Currently I am learning one of the best JavaScript Library Vue with Laravel by building Online Restaurant booking App. My thirst for learning new technology will never end. I have a vision to be one of the prominent backend engineers in near future.

How can I add value to your business?

I have a very keen interest in **Software Industry** and how it makes life easier day by day. I try to understand the **business process** and **add values** to both customers and the business. I assume **ownership** and **lead by example**. I understand the importance of **shipping fast** and capture the market before competitors. I think **out of the box** and bring novelty to the table.
